That's a pretty good idea, actually.

Perhaps there are technical issues we would want to contractor to investigate or help in organizing the information in order to save us time. Dave Powers used the contractor to investigate forestry studies many years ago.

Jayne,

You mean a contractor to assist with Oregon CZARA?
I actually have already been giving this question some thought, but haven't been able to come up with anything so far, given the inherently governmental functions of our deliberations. Perhaps if we had thousands of form letters from the comment period to contend with (as our Wetlands Division regularly deals with for "Waters of the U.S." proposed rulemakings). But we really didn't get what I would consider as form letters...

I will keep thinking, especially about the ORISE possibilities.

Don

Hi All,

Consider what kind of tasks we would like a Contractor like Tetra Tech to conduct starting within the next month and what kinds of tasks we would like an ORISE fellow to do starting in late August/September. Also what kind of qualifications would we like the ORISE fellow to have? The ORISE fellows usually have graduate degrees in sciences or environmental studies.

Hi Everyone - I think we're probably all on the same page that we're looking at a January 31, 2015 extension date. I'm assuming Allison is okay with this, and Alan, Jayne and I are also comfortable.

Don and Chris, can you confirm, then we can give the final thumbs up on the timeline to

everyone else?

Subject: Re: Summary of next week's CZARA calls

All--

Reattaching the estimated review timeline (with interim milestones) I had included at the end of the "Key Issues for May 7 NWEA Meeting" doc. I allowed 2 months for clearance at the end which may be a bit excessive but given holidays, perhaps not. Also Tech Team is now a little behind in their review schedule since deadline extension discussions have been all-consuming recently we have not had time to focus on our review. I did not factor in FOIA response time either which will also take up some of the tech and legal team's time during the early part of this review schedule.

Subject: Summary of next week's CZARA calls

Hi Everyone - I just talked with Christine to confirm the calls/meetings on CZARA for next week. Here they are:

Monday, May 19 - 10-11AM PST/1-2pm EST - Joelle, Lynda, and Christine will be on the call with the rest of the team. One of the goals of the call is to make sure the tech team can take a final action to disapprove or public notice an intent to approve by January 31, 2015. Phone #:

Non-Responsive

Tuesday, May 20 - 10-11AM PST/1-2pm EST - Joelle, Lynda, Christine, and the attorneys will meet to discuss legal questions from Lynda. Call-in # TBD.

Tuesday, May 20 - 12:30pm PST/3:30 EST - This is a proposed time to talk with NWEA, if JB is able to make this time. If she is, then we'll propose it to NWEA.

Subject: OR CZARA Schedule Extension request

We're gearing up to check-in with NWEA next Tuesday. One central purpose of that check-in is to tell them what length schedule extension we need. Are we asking for a schedule extension until January 31, 2015? I think we need to be clear on what we want. January 2015 has been my operating assumption.

Thanks.

P.S. I apologize for swamping your email boxes with too many messages today.
